

Work Profile

Complete Package Solution: Tank, Bund & Dosing Panel

A Front shot: Complete dosing system containing built-in custom fabricated chemical dosing / loading panel, chemical storage tank and bund. The dosing panel is situated within the tank's bund.

B Left-side shot: Shows the chemical storage tank situated behind the dosing panel.

C Right-side shot: Another perspective of the custom panel, tank & bund. The chemical storage tank contains sodium hypochlorite which is used for dosing water in WA's southwest region.

Dosing Panel Benefits

- + Polypropylene sheet fabricated, offering high chemical resistance.
- + No steel frame, offering a corrosion free, fully supported design.
- + Custom engineered in-house design.
- + Assembled and fitted out to clients requirements.
- + Different arrangement of screens available.
- + Excellent reputation around Australia for quality, delivery and performance.
- + Water Corporation WA approved.
