Insulating solutions in airports

Unex offers a wide range of possibilities to meet the requirements of cable conduction and protection in different areas of airport premises. Unex solutions provide:

- **Electrical safety: insulating material, no earthing required.**
- **Quick and easy mounting.**
- **Fire safety.**
- **Good performance outdoors.**
- **Resistance to corrosion.**
- **No maintenance.**
- **Mechanical resistance.**

Power stations

Power supply of motors, electrical cabinets and other equipment.

Technical galleries

Distribution of high, medium and low voltage cables for the supply of beaconing devices, radars, control tower, navigation cabinets, etc.

Supply of transformers

Complete and permanent insulation.
Excellent performance outdoors.

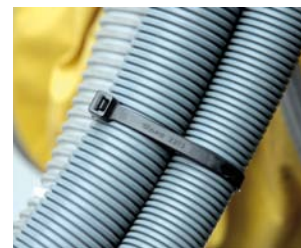

Airbridges

Supply of gangways and passenger boarding bridges.

Terminals

Cable distribution in baggage unloading and handling areas, passenger terminals, hangars and car parks.

Certified products

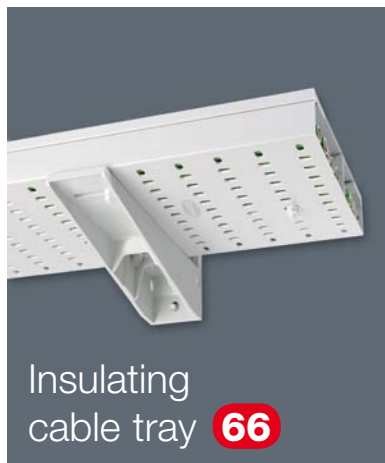

Installing products with quality marks is the best way to assure that they comply with regulations in force and that all technical data are periodically checked by an external control agency.

See technical data: www.unex.net

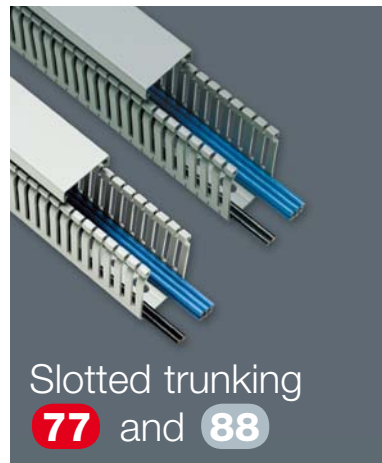

Unex products

In order to achieve enhanced features, Unex formulates its raw materials and gives them a specific name to outstand them from standard ones.  compliant.

Insulating cable tray **66**

- U23X** PVC
- U41X** PC+ABS halogen free

Slotted trunking **77** and **88**

77 in **U23X** PVC

88 in **U42X** PC+ABS halogen free

Trunking **73** and **93**

- U23X** PVC
- U41X** PC+ABS halogen free

Cable ties **22**

PA 6.6W
Polyamide 6.6 weatherized

Immediate availability through **our world-wide distribution network**
