

Solutions in health-care installations

Research as standard

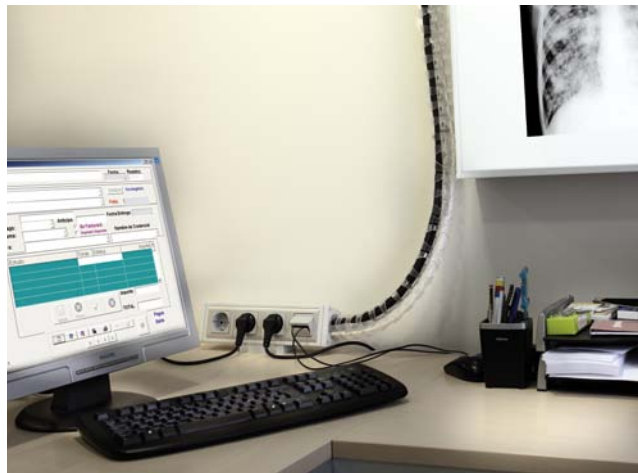

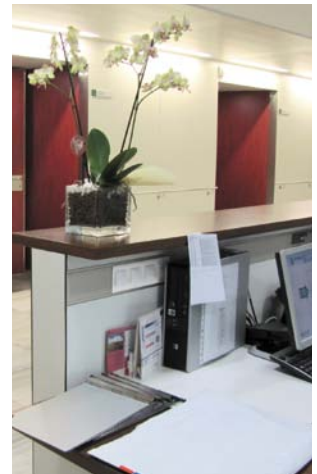

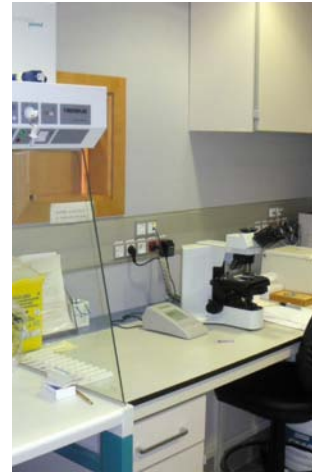

Specialist manufacturer
since 1964

www.unex.net

Trunkings as constructive elements or as part of furniture

Integration: Unex designs its products with neutral and rectilinear shapes in order to adjust to any environment, space or type of installation.

Free-designing: Flexibility to combine a variety of switches and sockets. It can be painted. Different possibilities of superficial treatments. Possibility of attached or embedded mounting.

Flexible and adapted solutions

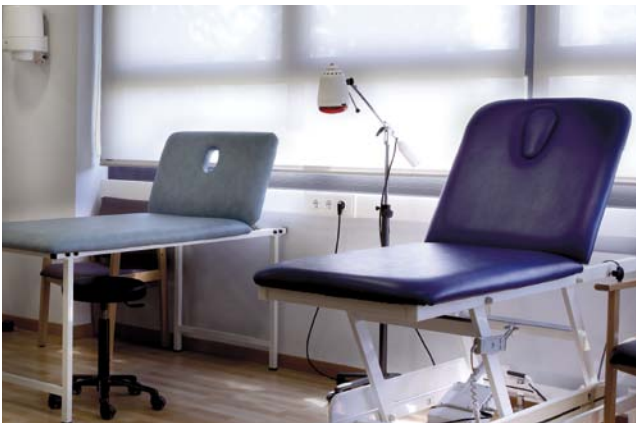

Evolution / Adaptability

Technological evolution increases the complexity of the installations. Unex solutions adapt to the new necessities and areas of the hospital, assuring excellent medical attention to the patient and a higher comfort for the medical personnel.

Maximum flexibility, minimum impact

Flexible and insulated solutions. The wiring installation can be easily modified or enlarged, assuring this way a reduced interference of installation and maintenance works on hospital activities.

Complete protection for the user

Insulating material: no risks in case of indirect contact; possible sources of fire are reduced; no earthing is required. Electrical safety guaranteed.

Quality marks: added value for the product

Installing products with quality marks is the best way to assure that they comply with international standards and that all technical data are periodically checked by an independent control agency.
